Feedback analysis on Curriculum by Employer

The current Syllabus covers all fundamental aspects of Management required in Industry?	The current syllabus structure offers enough specializations to learn about particular domains.	The curriculum structure is adequate for bridging the gap between industry standards and academics and meets industrial needs.	The syllabus format satisfies the requirement to provide practical experience through projects, internships, and other means.	For a thorough assessment, the evaluation techniques listed in the syllabus framework are adequate.	Any additional remark, if any?
